

INSTRUCTION MANUAL

Thank you for purchasing this natural stone vessel sink. This product is carefully packaged, inspected, and tested to ensure safe operation and delivery. The following instructions and safety guidelines will enable you to use the product for trouble-free operation. Please read the instructions and safety guidelines entirely before using the product.

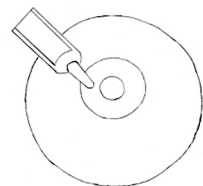

Product Feature: The product consists of: stone basin only.

Instructions for use:

1. Unpack the product then read these instructions before proceeding.
2. Carefully place the sink upside down on the counter with a towel or other soft cloth beneath to prevent damage.
3. Apply a continuous bead of silicone to the base of the sink where it will rest on the counter.
4. Turn the sink right-side-up and position it back over the drain hole.
5. Remove any excess silicone with a damp cloth. Let the silicone dry for 24 hours.
6. Carefully fully install your waste into the cutout of your basin.

Maintenance

Periodic cleaning is recommended.

Drain installation

1. Disassemble the drain by removing the threaded tail piece, rubber sealing gaskets, friction washer and lock nut from the drain body.
2. Place thread sealant on the threaded section of the tail piece and reattach to the drain body. Slide the flat rubber sealing gasket up the tail piece to the top of the drain body. This gasket will create a water tight seal between the drain flange and sink.
3. Place the drain in the drain hole in the sink. On the underside of the counter, attach the tapered rubber gasket. With the flat side facing down, slide the gasket up the threaded shank until it makes contact with the bottom of the sink.
4. Slide the friction washer up to meet the rubber gasket. Thread the lock nut onto the threaded shank. Hand-tighten and make sure that the drain is properly aligned. When ready, finish tightening with a basin wrench to secure the drain.

Thank you for choosing our stone vessel sink.
