Thank you for purchasing this HiB product.

Please read through these instructions carefully and refer back to them during installation to ensure that your product is fitted safely and that it retains its high quality finish.

Please retain this leaflet for future reference.

**Before installation, ensure that there are no hidden cables or pipes in the wall.**

### Mounting Points Diagram (Fig. 1)

Solo 40 & 50  
Units

Solo Curve Unit

### Installation

1. Position the unit in a suitable location against a wall.
2. Carefully mark the position of the unit using a soft pencil.
3. Remove the unit, and measure the position of the fixing point and mark accordingly (see Fig. 1). Please ensure that the marked mounting point accurately matches up with the fixing point on the unit.
4. **Before drilling, ensure there are no hidden cables or pipes behind the mounting points.** Using a masonry drill, drill holes in the marked positions to a suitable depth. If drilling through tile, use a ceramic drill bit.
5. Insert wall plug level with the surface of the wall. If fitting to a tiled surface, wall plugs should be inserted below the tile surface to avoid cracking. *NB. For plasterboard walls, specialist fixings should be purchased, available from any DIY or hardware store.*
6. Line up the unit and position the fixing point in line with the wall plug. Fix securely by tightening the screw provided through the fixing point and into the wall plug.
7. It may be necessary to adjust the position of the door. See Fig. 2 for details.

### Compatible Washbasins:

#### Solo 40cm Units

Suitable for **Delta** Washbasin, Art No. 8860

**Ocean** Washbasin, Art no. 8780

#### Solo 50cm Units
