

Magnifying Mirrors

Rico Art No. 24300

Tori Art No. 24400

Thank you for purchasing this HiB product.

Please read through these instructions carefully and refer back to them during installation to ensure that your product is fitted safely and that it retains its high quality finish.

Please retain this leaflet for future reference.

Before drilling, ensure that there are no hidden cables or pipes in the wall.

Operating Instructions

Use the arm (2) to position the mirror.
Rotate the mirror (1) to choose regular or 3x magnification.

Care Instructions

Do not use abrasives or solvents when cleaning this product.
Wipe off all water spillages as soon as possible using a soft, damp cloth.

Aftercare Service

In the unlikely event that this product should fail please contact HiB customer services, details shown below.

Installation

1. Position the magnifying mirror in a suitable location. **Do not position in direct sunlight as the magnifying effect of the mirror may pose a fire hazard.**
2. Remove the wall bracket from the base of the mirror via the fixings (7) on the mirror base (3).
3. Using the wall bracket (5) as a guide, carefully mark the required drilling locations using a soft pencil, ensuring it is level. Remove the wall bracket. **Please ensure all marked drill positions accurately match up with the fixing points of the wall bracket before drilling.**
4. Using a suitable drill bit, drill holes in the marked positions to a suitable depth. If drilling through tile, use a ceramic drill bit.
5. Insert wall plugs (4) level with the surface of the wall. If fitting to a tiled surface, wall plugs should be inserted below the tile surface to avoid cracking. *NB. For plasterboard walls, specialist fixings should be purchased, available from any DIY or hardware store.*
6. Fix wall bracket onto wall using the mounting screws (6) provided.
7. Place the mirror onto the wall bracket and secure into place using the fixings (7) on the mirror base (3).
