

## Magnifying Mirrors

Rossi Art No. 27200

Tila Art No. 28200

Thank you for purchasing this HiB product.

Please read through these instructions carefully and refer back to them during installation to ensure that your product is fitted safely and that it retains its high quality finish.

Please retain this leaflet for future reference.

**Before drilling, ensure that there are no hidden cables or pipes in the wall.**

### Operating Instructions

Use the arm to position the mirror. Rotate the mirror to choose regular mirror or 3x magnification.

### Care Instructions

Do not use abrasives or solvents when cleaning this product. Wipe off all water spillages as soon as possible using a soft, damp cloth.

### Aftercare Service

In the unlikely event that this product should fail please contact HiB customer services, details shown below.

### Installation

1. Position the magnifying mirror in a suitable location. **Do not position in direct sunlight as the magnifying effect of the mirror may pose a fire hazard.**
2. Using the wall bracket (see Fig. 1) as a guide, carefully mark the required drilling locations through the mounting holes using a soft pencil, ensuring it is level. Remove the wall bracket. **Please ensure all marked drill positions accurately match up with the fixing points of the wall bracket before drilling.**
3. Using a suitable drill bit, drill holes in the marked positions to a suitable depth. If drilling through tile, use a ceramic drill bit.
4. Insert wall plugs level with the surface of the wall. If fitting to a tiled surface, wall plugs should be inserted below the tile surface to avoid cracking. *NB. For plasterboard walls, specialist fixings should be purchased, available from any DIY or hardware store.*
5. Place the mirror into place and fasten fixings into wall plugs.

### Mounting Diagram (Fig. 1)

*NB. Rossi mirror shown below.*

*Wall bracket & mounting holes are identical on Tila mirror*
