Thank you for purchasing this HiB product.

Please read through these instructions carefully and refer back to them during installation to ensure that your product is fitted safely and that it retains its high quality finish.

Please retain this leaflet for future reference.

Before drilling, ensure that there are no hidden cables or pipes in the wall.

Installation

1. Position the mirror in a suitable location.
2. Carefully mark the position of the mounting points using a soft pencil.
3. Remove the mirror and mark the mounting points according to the diagram on the left. **Please ensure that all marked mounting points accurately match up with the fixing points on the mirror.**
4. **Before drilling, ensure there are no hidden cables or pipes behind the mounting points.** Using a suitable drill bit, drill holes to a suitable depth for fixings used. If drilling through tile, use a ceramic drill bit.
5. Insert wall plugs (not supplied) level with the surface of the wall. If fitting to a tiled surface, wall plugs should be inserted below the tile surface to avoid cracking. *NB. For plasterboard walls, specialist fixings should be purchased, available from any DIY or hardware store.*
6. Screw black fixing pegs into position, we recommend using a minimum 45mm screw. Mount the mirror on to the fixing pegs.
7. Carefully mark the position of the stabilisers using a soft pencil and remove mirror from wall.
8. Separate stabiliser as show in diagram on the right (Fig. 1).
9. For fixing part A to the wall follow steps 4 & 5. Screw stabiliser into position. We recommend using a minimum 45mm screw.
10. Push part B onto part A and mount mirror on to fixing pegs.
11. Remove protective film from part B and press the mirror onto both stabilisers. The mirror is now securely fixed to the wall.
