

JODIE
fixed shower head
(single position)

DIMENSIONS ARE APPROXIMATE

INSTALLERS PLEASE NOTE THESE INSTRUCTIONS ARE TO BE LEFT WITH THE USER

JODIE fixed shower head

INSTALLATION

Before installing the *shower head flush the pipework through to remove any debris that may be in the system.

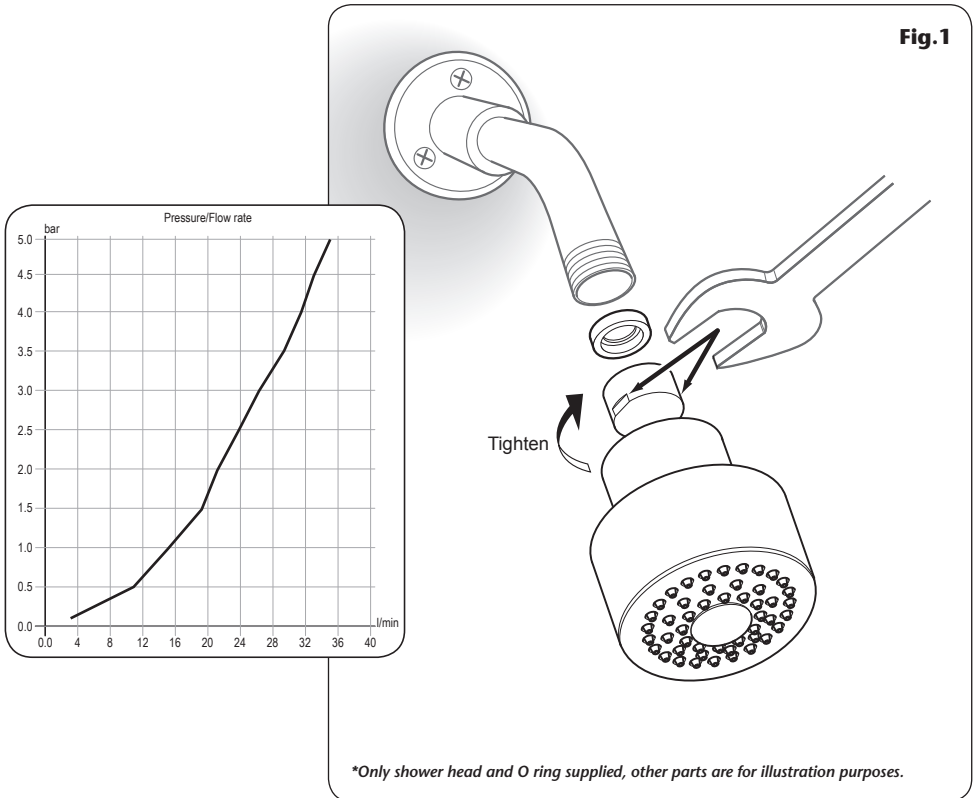

Insert the rubber *O ring into the threaded fitting of the shower head.

Offer the shower head up to the outlet pipework and tighten using an appropriately sized spanner (**fig.1**) (take care not to over tighten).

Caution: It is not advised to use pipe grips as the finish on the fittings may be damaged.

Cleaning

Clean the shower head with a suitable brush and warm soapy water. Make sure all traces of scale are removed and thoroughly rinse in clean water afterwards.
