INTRODUCTION

Thank you for purchasing a quality Mira product. To enjoy the full potential of your new product, please take time to read this guide thoroughly, having done so, keep it handy for future reference.

The following pages aim to provide comprehensive installation instructions, plus advice on how to care and maintain your product.

We recommend that the unit is installed by a qualified plumber or engineer.

GENERAL INFORMATION

General

1. Read all of these instructions and retain this guide for later use.
2. Pass on this guide in the event of change of ownership of the installation site.
3. Follow all warnings, cautions and instructions contained in this guide.
4. Remove all protective tape from the enclosure before installation.
5. Excessive flow rates may lead to overflowing and leaking.
6. Water Spray may extend beyond the entrance of walk-in enclosures and we recommend tiling of the adjacent area.
7. We recommend a drainage test is carried out to ensure the waste is adequate for the flow delivered.

Safety Information

1. Care should be taken when drilling into walls and floors to avoid any hidden pipes or wires.
2. We strongly recommend that all glass panels are moved by a minimum of two people and that any protective packaging along the glass edges is kept in place for as long as possible to prevent damage before installation.
3. During installation we recommend additional help in lifting heavy doors and side panels.
4. Wear protective footwear when lifting panels.
5. Wear safety glasses when drilling.

Before Fitting the Bath Screen

1. Ensure the bath is level and walls are vertical and square.
2. Shower fittings should be positioned such that water discharges down the centre line of a bath or across the opening of a shower cubicle door.
3. Ensure water is not directed at the bath screen. This could result in water spraying outside of the enclosure.
4. Ensure there is a complete silicone seal between the bath and finished wall.
6. Ensure the bath screen is undamaged and no parts are missing.
7. Ensure the size of the bath screen is suitable for the installation. Tempered safety glass cannot be cut.
8. Ensure nothing can impact the bath screen during usage.

When Fitting the Bath Screen

1. The wall channels must be installed onto a tiled or waterproof finished flat and even wall surface. Failure to do so will result in an unsatisfactory seal, which may cause property damage.
2. We recommend our bath screen are fitted onto a bath.
Warning! The use of grout/tile cleaners, scale removers, abrasive scourers, drain unblockers and other powerful detergents may lead to damage of metallic, plated and plastic surfaces, including the tray and shower waste.

Use of the Bath Screen

1. High water pressure and flow may lead to excessive splashing causing water to escape outside of the bath screen.
2. In certain circumstances such as cleaning, water sprayed directly at the seals may escape outside of the bath screen.

GUARANTEE

For domestic installations, Mira Showers guarantee this bath screen against any defect in materials or workmanship for a period of **ten** years from the date of purchase.

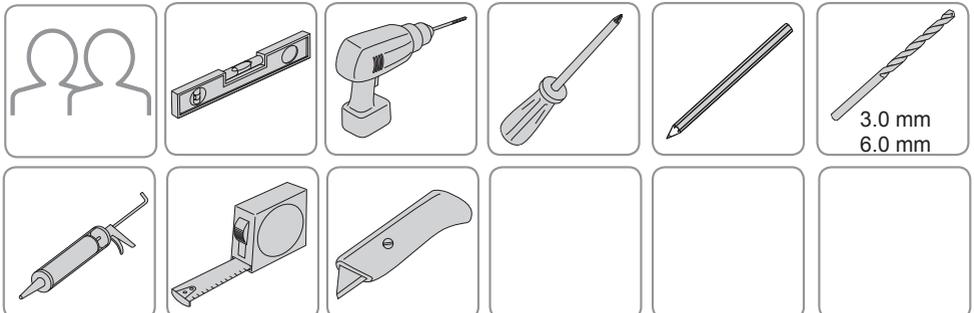

For non-domestic installations, Mira Showers guarantee this bath screen against any defect in materials or workmanship for a period of **one** year from the date of purchase.

For terms and conditions refer to the back cover of this guide.

TOOLS REQUIRED

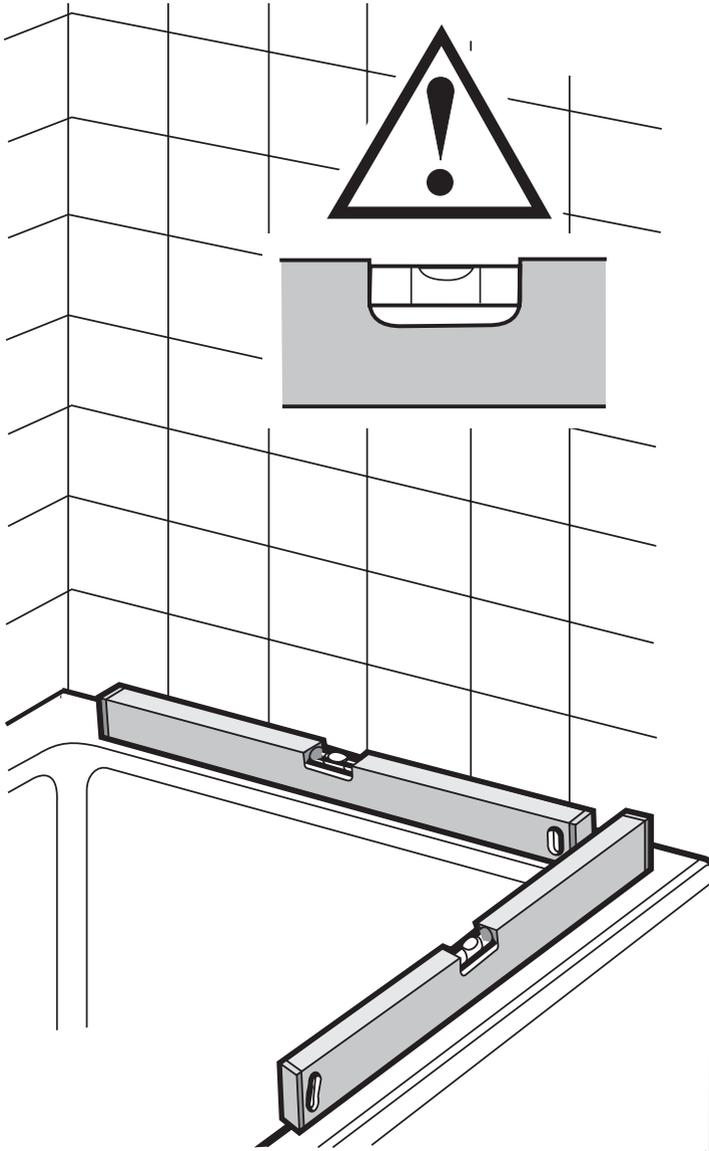

PACK CONTENTS

DIMENSIONS

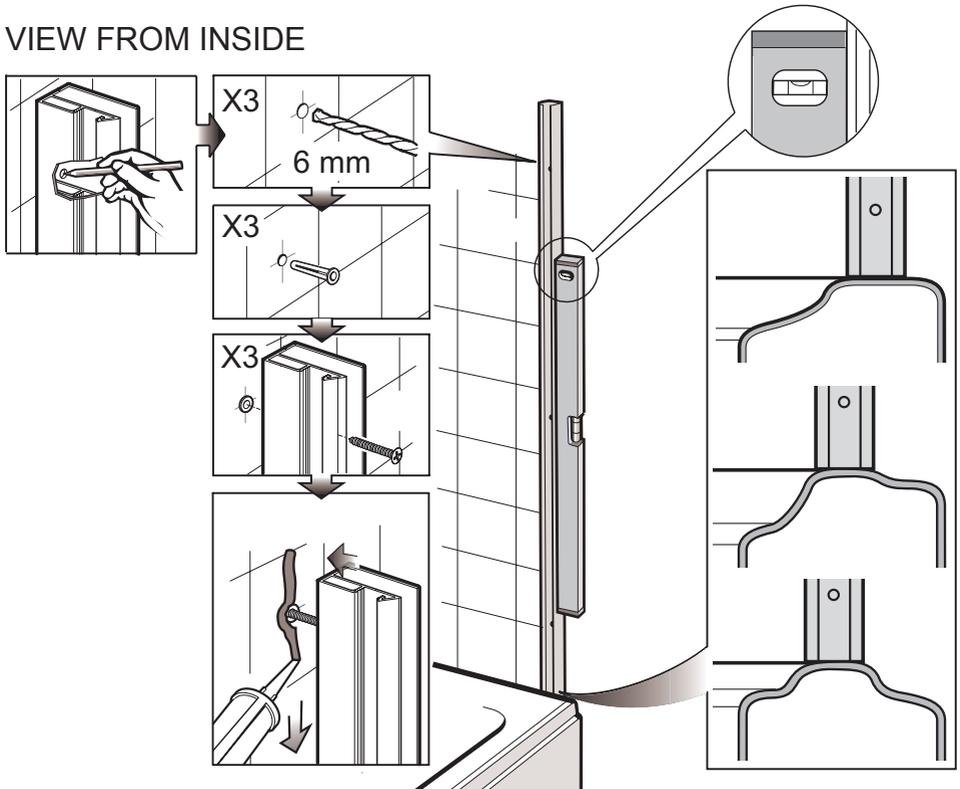

INSTALLATION

1

- (a) Make sure that the bath is level and that the walls are vertical and square.
Note! Protect the bath surface during installation.

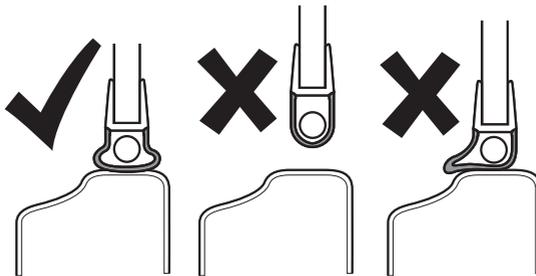

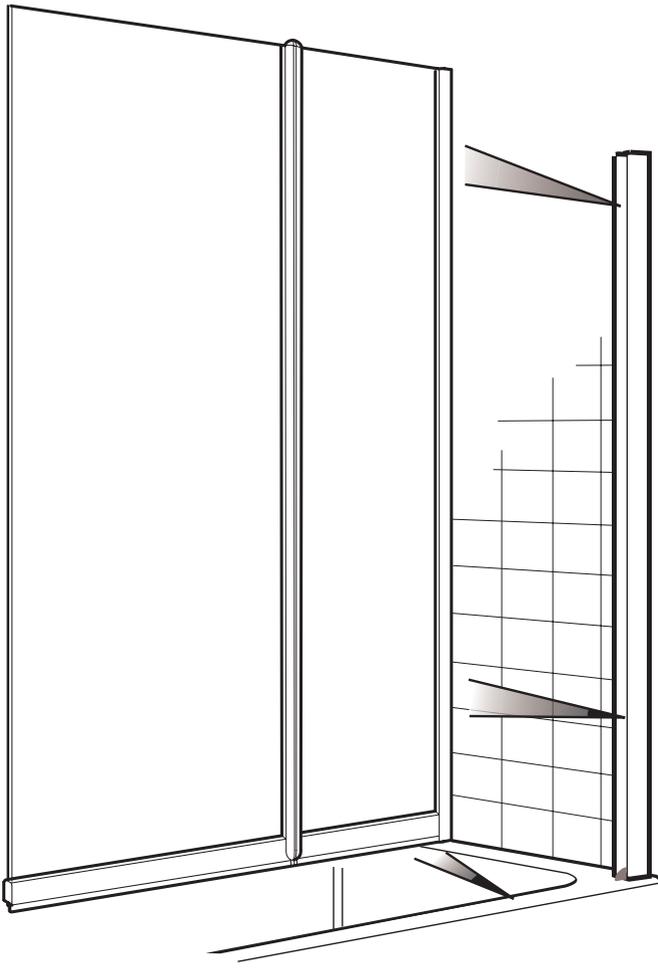

2

VIEW FROM INSIDE

- (a) Position the wall channel on the wall. Using a spirit level make sure that it is upright.
Note! Always fit the wall channel to the highest point on the bath side.
- (b) Mark the position of the fixing holes, then remove the wall channel.
- (c) Drill with a 6 mm masonry bit (not supplied) and plug using the wall plugs (supplied). For other types of wall structure alternative fixings may be required (not supplied).
- (d) Position the wall channel on the wall and partially install the fixing screws.
- (e) Apply silicone sealant according to the manufacturers instructions along the length of the wall.
- (f) Fully tighten the fixing screws, making sure that the wall channel is upright.

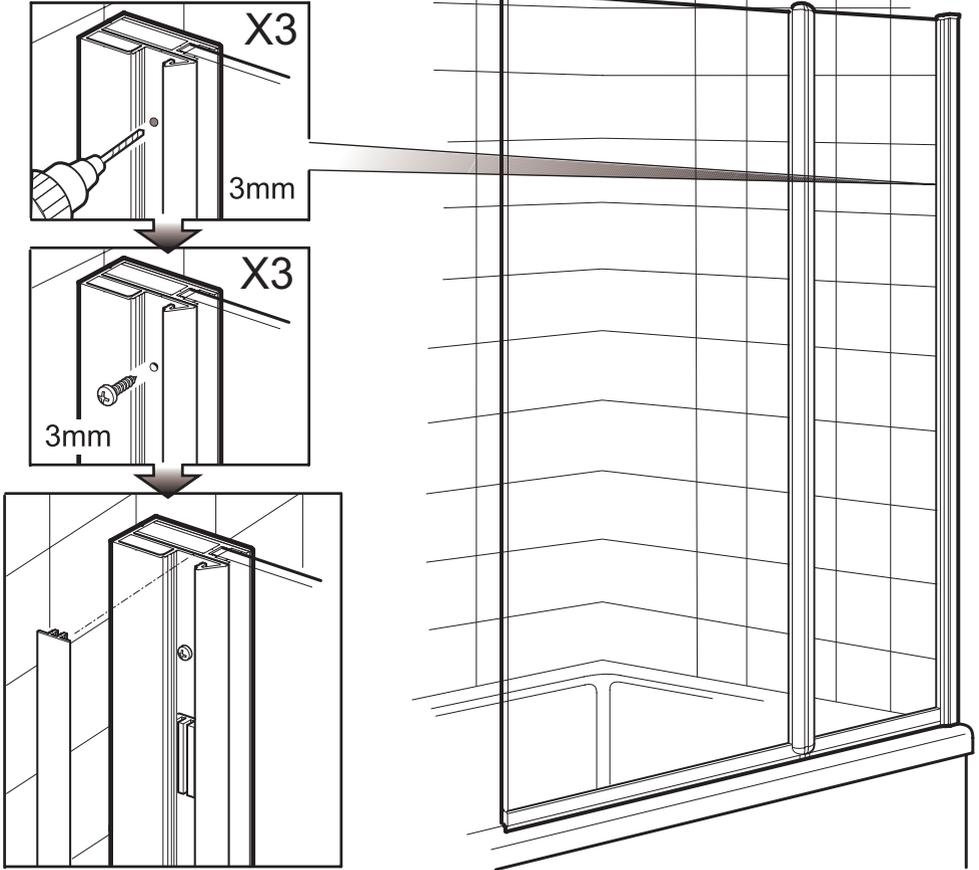

3

- (a) Carefully lift the bath screen into position.
(b) Adjust the bath screen until the seal correctly touches the bath.

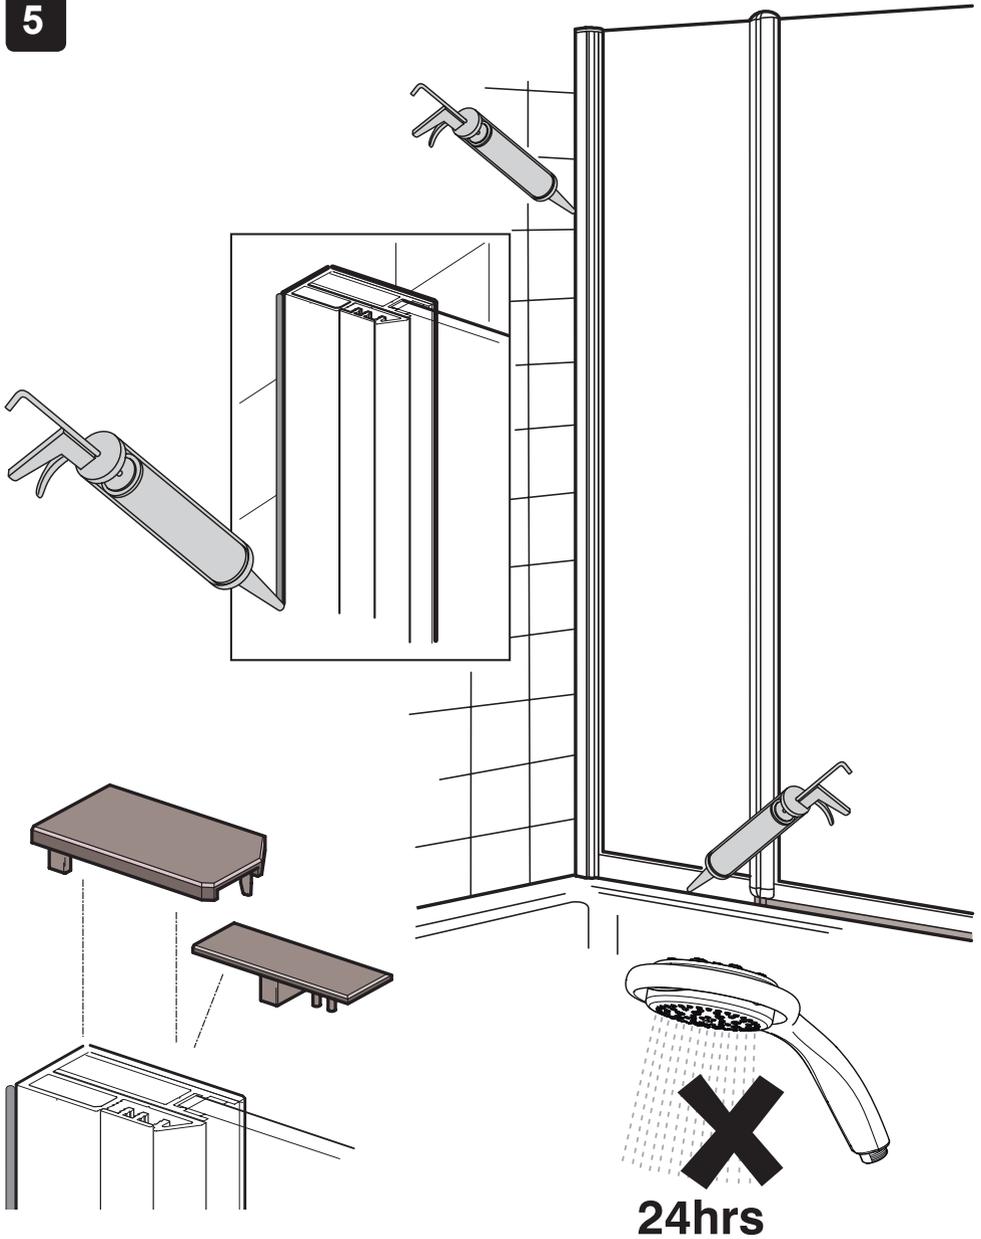

4

VIEW FROM INSIDE

- (a) Drill **three** 3 mm holes in the bath screen frame and through into the wall channel at the bottom and middle positions only, with a 3 mm HSS drill.
- (b) Install and tighten the screws.
- (c) Install the sealing strip.

5

- (a) Apply sealant in accordance with the manufacturers instructions along the inner surfaces of the bath screen.
- (b) Fit the plastic covers to the top of the extrusions.
- (c) Allow the silicone sealant to cure for 24 hours before use.

MAINTENANCE

General Maintenance

Providing the shower enclosure has been correctly installed and is operated in accordance with the instructions contained in this guide, difficulties should not arise. If any maintenance is required then it must be carried out by a competent tradesperson to whom the maintenance instructions are provided.

Before replacing any parts ensure the underlying cause of the malfunction has been resolved.

Cleaning

Warning! The use of grout/tile cleaners, scale removers, abrasive scourers, drain unblockers and other powerful detergents may lead to damage of metallic, plated and plastic surfaces, including the tray and shower waste.

Avoid the use of 'spray and leave' cleaners. Any cleaner used should have a pH level between 4 and 8 and immediately wiped dry using a soft cloth.

Care

To preserve the beauty of your shower enclosure for many years, please observe the following care instructions:

Rinse glass and frame with clear water after showering. Remove water droplets with a squeegee. **Do not rub dry!** To clean your shower hygienically and easily, we recommend the use of a biodegradable cleanser.

Regular cleansing with a biodegradable cleanser prevents stubborn stains and ensures a clean and hygienic surface for many years. Do not use scouring or caustic cleansers under any circumstances! These can damage the surface of the frame, glass and decorative parts as well as the plastic parts.

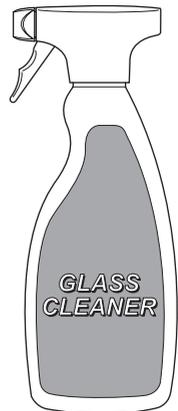

Chrome Parts

Use only cleansers expressly specified for chrome!

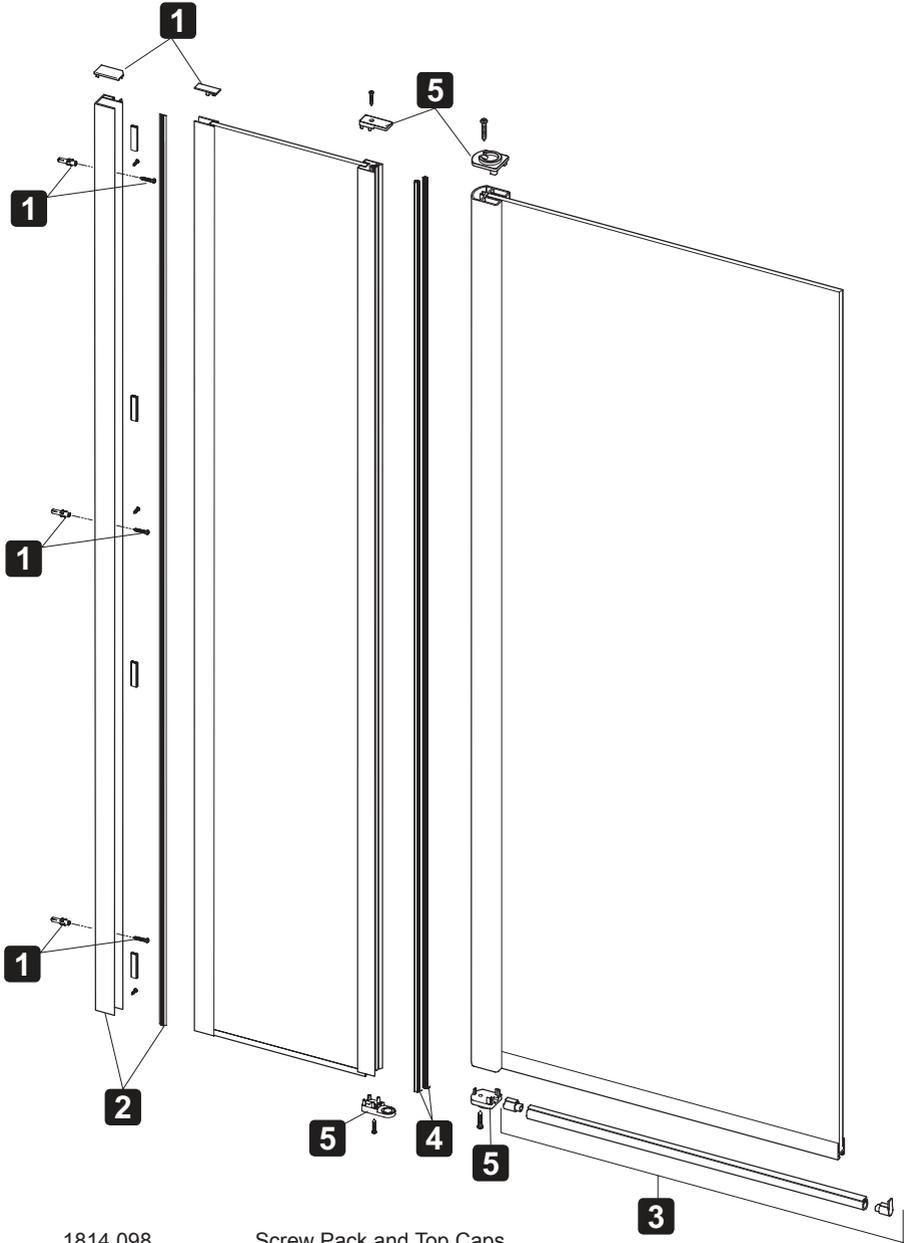

KOHLER Glass Cleaner

For occasional cleaning of glass treated with KOHLER Glass Protector or for more regular maintenance of untreated surfaces, we recommend using KOHLER Glass Cleaner.

The cleaner cleans and polishes without smearing or streaking and rejuvenates the Glass Protector.

SPARE PARTS

CUSTOMER SERVICE

Guarantee

Your product has the benefit of our manufacture's 10 year guarantee (1 year for any commercial installations) which starts from date of purchase. **Note!** door seals, gaskets and magnets are guaranteed for 3 years only.

To activate this guarantee, please visit our website or free phone 0800 0731248 within 30 days of purchase (UK only).

Within the guarantee period we will resolve defects in materials or workmanship by either repairing the product, providing new goods and parts to you in replacement or refunding (up to but not in excess of) the original purchase price, as we may choose.

This guarantee is in addition to your statutory rights and is subject to the following conditions:

- The guarantee applies solely to the original installation under normal use and to the original purchaser only. The product must be installed and maintained in accordance with the instructions given in this user guide. The product must be inspected and issues reported before installation.
- Servicing must only be undertaken by us or our appointed representative. **Note!** if a service visit is required the product must be fully installed and connected to services.
- Repair under this guarantee does not extend the original expiry date. The guarantee on any replacement parts or product ends at the original expiry date.
- For trims, handles or consumable items we reserve the right to supply replacement parts only.

The guarantee does not cover:

- Call out charges for damage or defects caused by incorrect installation, frost damage, mildew, limescale, corrosion, lack of maintenance, improper use, inappropriate cleaning (please refer to our Care and Maintenance Instructions) or where no fault has been found with the product.
- Accidental or wilful damage.
- Compensation for loss of use of the product or consequential loss of any kind.
- Damage or defects caused if the product is repaired or modified by persons not authorised by us or our appointed representative.
- Wear and Tear.
- Glass breakage or the coating on the glass. By its nature all glass has the potential to shatter therefore we only use toughened safety glass.
- Products purchased ex-showroom display.

Note! Integrated shower systems are subject to a separate guarantee.

IMPORTANT! Enclosures must be inspected for defects prior to installation. This Guarantee does not cover the costs of removal and/or reinstallation where a defect would have been discovered by inspection prior to installation.

What to do if something goes wrong

If your product does not function correctly when you first use it, contact your installer to check that it is installed in accordance with the instructions in this manual.

If this does not resolve the issue, contact our Customer Services Team who will offer you or your installer help and advice.

Helpdesk Service

- Our Customer Services Team is comprehensively trained and can offer help and advice, spare parts, accessories or a service visit. You will need to have your model name, model number and date of purchase.

Mira Showers Website (www.mirashowers.co.uk)

From our website you can register your guarantee, download additional user guides, diagnose faults, purchase our full range of accessories and popular spares, refer to our FAQ's and request a service visit.

Spares and Accessories

- We hold the largest stocks of genuine Mira spares and accessories. Contact us for a price or visit our website to purchase items from our accessory range and popular spares.

Service/Repairs

- No one knows our products better than our nationwide team of Service Technicians. We can carry out service or repair work to your product both during and after the guarantee period. Ask about our fixed price service repairs.
