

## AFTERCARE INSTRUCTIONS

Your fitting has a high quality finish and should be treated with care to preserve the visible surfaces.

All surface finishes will wear if not cleaned correctly, the only safe way to clean your mixer is to wipe with a soft damp cloth. Stains can be removed using washing up liquid. All bath cleaning powders and liquids will damage the surface of your fitting, even the non-scratch cleaners. **NOTE: Never use abrasive detergents or disinfectants or those containing alcohol, hydrochloric acid or phosphoric acid.**

Bristan recommend E-Cloth for cleaning all of our bathroom & kitchen products. Using just water, E-cloth gives a smear free, deep clean by breaking up and holding dirt, which normal cloths leave behind. Order through your Bristan stockist. (ORDER CODE: ECLOTH)

## GUARANTEE

All products are manufactured to the highest standards and a 5 year guarantee covers any defect in manufacture.

**NOTE: The 5-year guarantee on the cartridge is invalidated if damaged by any waterborne debris.**

**NOTE: All products must have access for servicing or replacement during the life of the product.**

In the interests of continuous product development we reserve the right to alter specification as necessary

## Quadrant Bath Spout

## Fitting Instructions & Contents List

Before starting any installation project please consider:

Prior to drilling into walls, check there are no hidden electrical wires, cables or water supply pipes with the aid of an electronic detector. If you use power tools do not forget:

- Wear eye protection
- Unplug equipment after use

**Please keep these instructions for future reference and request of replacement part**

This bath spout is intended to be used in conjunction with other products, such as the side bodies, diverters and/or stopcocks from the Bristan Quadrant range in order to create a system to suit your requirements.

## **COMPONENTS**

1. Bath Spout
2. Shroud
3. Backnut (optional)

## **INSTALLATION**

This bath spout should be arranged in your system with a supply of pre-mixed water.

1. Identify all components and check for completeness, particularly before arranging installation.
2. Depending on application the bath spout (1) can be panel mounted, using a backnut (3) or set into the wall on rigid pipe work.
3. Connect spout to pipe work in wall using recommended 3/4" BSP connections (not provided) using a thread sealing compound where necessary.

**NOTE: - Before finishing wall turn on water supplies to check both correct System function and for leaking from joint connections.**

4. Complete wall finish taking care to protect fitting.
5. Fit shroud (2) over body and slide up to wall.
6. See over the page for aftercare instructions

Before starting any installation project please consider:

Prior to drilling into walls, check there are no hidden electrical wires, cables or water supply pipes with the aid of an electronic detector. If you use power tools do not forget:
