# Telescopic Shower Curtain Rod

Length extends from  
106cm (3' 6")  
to 183cm (6')

## Fitting instructions

- 1 grasp the two sections of rod firmly and unlock mechanism by twisting in opposite directions

- 2 extend rod to desired length and place in position between the two walls

- 3 further extend the rod to ensure a tight fit and twist to lock

- 4 to obtain a very tight fit between walls, unscrew the plastic bracket

Note: to allow for easy adjustment the adjustable end bracket is not permanently attached to the rod and it is possible that it may become detached in transit. If so, simply replace the bracket on the end of the wider tube.

Please take care when fitting to avoid any damage to wall surfaces

Please recycle  
where facilities  
exist
