User Manual

INDUSTVILLE

Industville Limited are a rapidly expanding company specialising in the manufacture of unique industrial vintage reproduction lighting and furniture.

Industville designs and creates its own range of unique, handcrafted products in addition to working closely with clients to produce bespoke lighting and furniture solutions. These have included a variety of distinguished retail, leisure and hospitality companies such as Jamie Oliver's Restaurants, Waterstones, Costa Coffee, Pizza Express, Ask Italian, Zizzi, Café Nero and Lush in addition to smaller scale interior projects and retail customers.

The strength of our company lies in the fact that, our products are available in large numbers and offer the look and feel of vintage, retro industrial lighting without the cost and time-constraints of searching for originals. Nevertheless, as all our products are hand finished by our skilled craftsmen in our dedicated factory, they retain an authentic and individual quality that holds true to the ethos and feel, unique to vintage industrial lighting and furniture.

This Instruction Booklet is designed to help you through each step of owning your new product, from installation to use.

Please read these instructions carefully before assembly to ensure safe and satisfactory operation of this product. Please retain these instructions for future use. Do not modify or alter any product before or after installation. This may render the product unsafe and void the warranty. Carefully unpack and examine the product for any damage. If you think there is a defect, do not use and contact our customer services on: **+44(0) 20 7971 7871**

Safety Information

- We always recommend installation by a qualified electrician.
- This product is produced in conformity with all relevant safety regulations.
- If in doubt about fitting this product, please always consult a qualified electrician.
- To reduce the risk of fire, electrical shock or personal injury, always turn off and unplug lamp and allow it to cool prior to replacing light bulb.
- Ensure the power is switched off from the mains before cleaning or carrying out any maintenance.
- Check existing wires hanging from junction box for wear or fraying before installing your new light.
- Don't attach your new light fixture wiring to any existing wiring that shows signs of wear and tear, including frays or burn marks as this may be a fire hazard and may also necessitate calling an electrician.
- Unless otherwise stated our products are only suitable for indoor use and must not be installed in areas where they may be subjected to high humidity or water. Please refer to Individual IP rating, further information can be found on the Industville website.
- Maintain a safe distance from lamp holder to surfaces, keeping a minimum 30mm distance from heated light source to shade.

Care Instructions

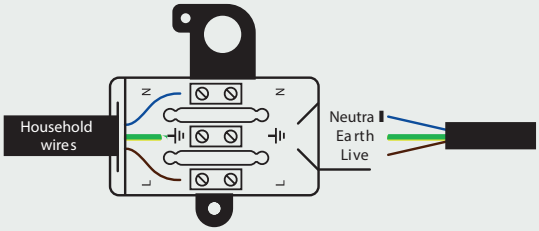
- Avoid the use of all polishers, cleaners and abrasives, as they will damage the handmade finish of your product.
- To remove dust or fingerprints wipe gently with a soft clean cloth.
- Ensure the power is switched off from the mains and allow to cool before cleaning or carrying out any maintenance on electrical products.
- Glass shades should be only washed in lukewarm water and dried thoroughly before refitting.
- When changing the bulb ensure that the power supply has been disconnected and the bulb has cooled down before replacing.

Assembly

Your Industville product may require a small amount of assembly.
Please refer to **www.industville.co.uk** for individual product assembly instructions.
Industville User Manual available as downloadable PDF.

Electrical Installation

1. Always disconnect power and allow to cool before servicing or cleaning.
2. Ensure the electrical supply is switched off.
3. Ensure that the electrical circuit to which this fitting is to be connected with has been installed and fused in accordance with current IEE wiring regulations, BS7671.
4. Products must also be installed in accordance with UK Building Regulations where applicable.
5. Position the fitting where desired and confirm the method of fixing which will be required: wood screw for wood, or wood screw/wall plug for brick and masonry.
6. Carefully identify the location of the mains supply cable and any other cables in the area in which you intend to fix the lamp in order to avoid damage or injury during installation.
7. Carefully support the holder during the following wiring/connection procedure.
8. Using the connector block supplied, carefully connect your lamp to the housing wiring as detailed in the following diagram:



9. Carefully bind the terminal block and the cable either side with insulation tape (not supplied) ensuring that tape fully covers the cable beyond the point where the outer insulation has been stripped.
10. Install the mounting bracket using mounting screws (screws not provided).
11. Screw the threaded rod from the ceiling rose to the mounting bracket and secure into place.

Maintenance & Cleaning

Caution - Always disconnect power supply when servicing or cleaning.

- Use a clean dry soft cloth.
- Do not use abrasive cloths or polishes as this may cause damage to the product.
- Glass shades should be only washed with in lukewarm water and dried thoroughly before re-fitting.
- Wipe down any excess moisture with a dry cloth frequently to retain the protective lacquer.

Changing The Bulb

Caution - Always disconnect power supply when servicing or cleaning.

- Turn off the power supply.
- Allow the bulb to cool down before touching it.
- Ensure you can safely reach the bulb by using a stepladder.
- Remove the existing bulb out of the socket, keep twisting anticlockwise until the bulb comes loose from the socket.
- Insert a replacement E27 bulbs lightly but firmly into the socket. Depending on the type, turn it clockwise until it locks into place or keeps twisting clockwise until it won't go any further.
- Once the bulb is in, turn the power back on again and switch on the light.
- Safely dispose of the old bulb, taking extra care as the glass is fragile and sharp.
- Remember to check the wattage on the used bulb and replace it with a bulb of the same wattage.
- Dispose of the bulb out of reach of children.
- Do not put your finger in an exposed Light Socket.
- Check old wires hanging from junction box for wear and tear or fraying before installing your new light. Do not attach your new light fixture wiring to any old wiring that shows signs of wear, including frays or burn marks. This may be a hazard and may also require calling an electrician.

3	Make the connections as per the wirings instructions.
4	After tucking back, the wiring in the ceiling, Attach the ceiling canopy to mounting bracket with the help of mounting screws.

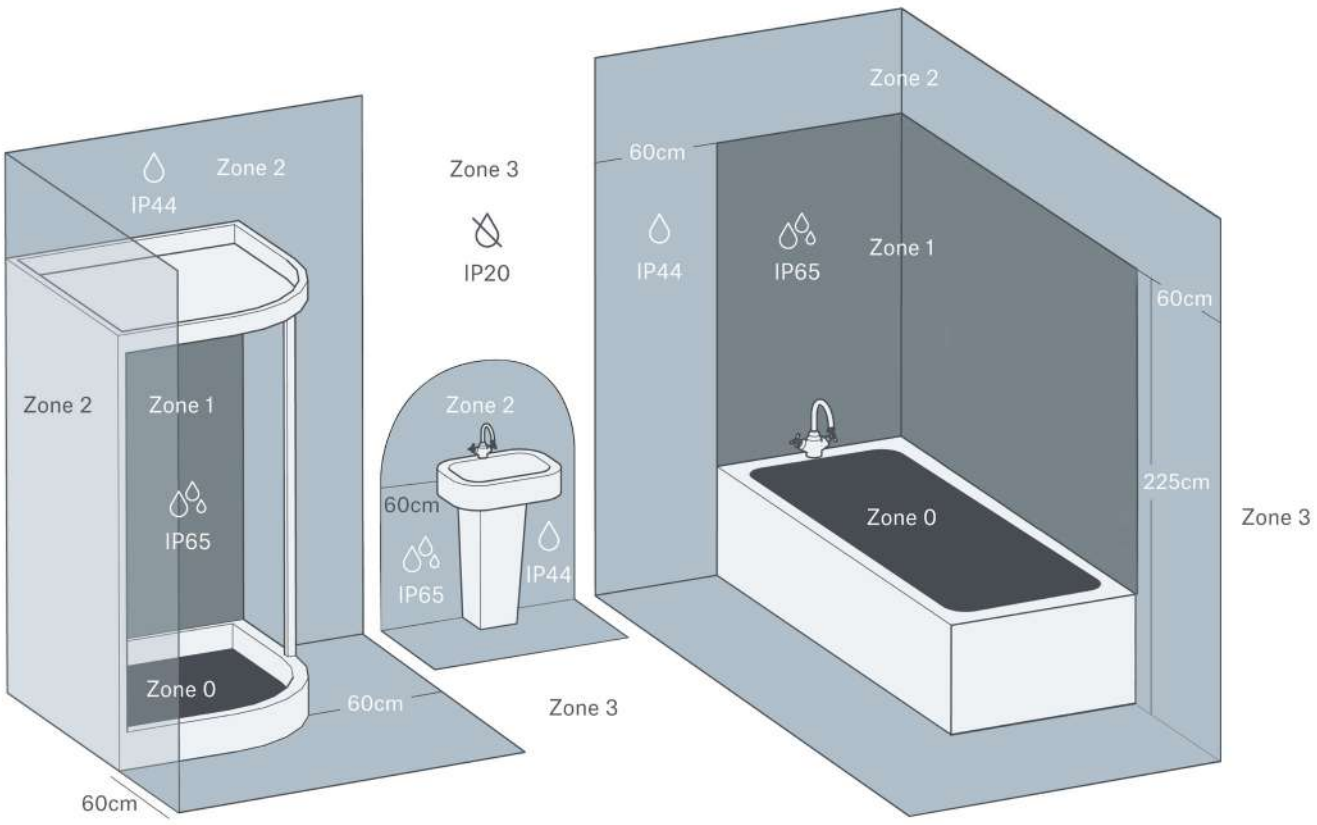
IP Ratings

All lights and fittings are measured on this feature known as an IP rating. Our wide range of lighting have different rating levels, dependant on how effective they are protected against exterior elements such as liquids or solid materials, this will dictate where your lights can be installed and how much moisture or external force it can safely encounter.

IP65 / Zone 1 – suitable for indoor, bathroom and outdoor installation - IP rated as "dust tight" and protected against water projected from a nozzle. Limited Ingress permitted.

IP44 / Zone 2 – suitable for indoor, and in zone 2 bathroom installations - IP rated as protected against solid objects over 1mm (tools, wires, and small wires) and protected against water sprayed from all directions. Limited Ingress permitted.

IP20 / Zone 3 – suitable for indoor and outside zone 2 bathroom installation - IP rated as protected against solid objects over 12mm, e.g. fingers but zero protection against liquids. No water Ingress permitted.



Pendants

Our range of pendant light fittings have been designed to emphasis the sharp lines, exposed hardware and raw sophistication indicative of the industrial style. Nevertheless, Industville endeavour to offer a variety of options to ensure the flexibility of the look to its clients own individual projects. This can be utilised through our bespoke painting service alongside a variety of different finishes, holders, high quality fabric flex and light-bulbs to enable our customers to create a unique and personal light fitting to suit any space.

Please note: all our products are hand finished to ensure an authentic vintage look and therefore the may vary slightly from those shown in the images.

Brooklyn

These ceiling fittings are completely pre-wired and only require a small amount of assembly after connecting to the mains wiring:

- Once the pendant holder is installed, unscrew the black ring.

- Hold the shade in place.

- Once in place, begin to screw the black ring.

- Once secure, it will hold the shade to the holder, your Brooklyn Pendant is now installed.

Brooklyn

These ceiling fittings are completely pre-wired and only require a small amount of assembly after connecting to the mains wiring:

- Clearly mark out the location of each arm of the pendant.

- Attach a ribbed anchor (not provided) to each hook on the pendant light.

- Once attached, hammer these hooks and anchors into the desired location, taking extra care not to use too much force.

- Once secure, install the bulbs. Your 5 Wire Pendant is now installed.

- **Please Note:** Take extra care when installing on plasterboard, the thickness of the plasterboard and weight of the products being installed need to be considered. You will need to use a support backing/wooden support frame behind the plasterboard. We always advise consulting a qualified electrician/contractor when installing our fittings.

Brooklyn Outdoor & Bathroom

These ceiling fittings are completely pre-wired and only require a small amount of assembly after connecting to the mains wiring:

Once the pendant holder is installed, unscrew the black ring.

- Hold the shade in place onto the holder.

- After holding the shade in its place, place the threaded metal ring beneath the shade (if you don't want to have a shade, simply screw the threaded metal ring directly on the holder).

- Once in place, begin to screw the black ring.

- Once secure, it will hold the shade and the threaded metal ring to the holder.

- Once in place, install the bulb.

- After installing the bulb, screw in the glass cover.

- Ensure the rubber seal is intact and firmly attached to the glass.

- Once secure, your Brooklyn Outdoor Pendant is now installed.

Orlando

These ceiling fittings are completely pre-wired and only require a small amount of assembly after connecting to the mains wiring:

- Unscrew the nut/screw at the bottom of the cage; this will release the cage opening.

- Unscrew the two small nuts from the top of the cage opening.

- Hold the cage in place and begin to screw the black ring.

- Install the bulb through the cage opening.

- Screw back the two small nuts on top of the cage and then the nut/ screw at the bottom of the cage.

- Once secure, it will hold the Cage to the holder, your Orlando Pendant is now installed.

Flush Mounts

Our range of pendant light fittings have been designed to emphasis the sharp lines, exposed hardware and raw sophistication indicative of the industrial style. Nevertheless, Industville endeavour to offer a variety of options to ensure the flexibility of the look to its clients own individual projects. This can be utilised through our bespoke painting service alongside a variety of different finishes, holders, high quality fabric flex and light-bulbs to enable our customers to create a unique and personal light fitting to suit any space.

Brooklyn Outdoor & Bathroom

These ceiling fittings are completely pre-wired and only require a small amount of assembly after connecting to the mains wiring:

- Once the Flushmount is installed, unscrew the black ring.

- Hold the shade in place onto the holder.

- After holding the shade in its place, place the threaded metal ring beneath the shade (if you don't want to have a shade, simply screw the threaded metal ring directly on the holder).
- Once in place, begin to screw the black ring.

- Once secure, it will hold the shade and the threaded metal ring to the holder.

- Once in place, install the bulb.

- After installing the bulb, screw in the glass cover.

- Once secure, your Flush Mount is now installed.

Wall Lights

Our range of pendant light fittings have been designed to emphasis the sharp lines, exposed hardware and raw sophistication indicative of the industrial style. Nevertheless, Industville endeavour to offer a variety of options to ensure the flexibility of the look to its clients own individual projects. This can be utilised through our bespoke painting service alongside a variety of different finishes, holders, high quality fabric flex and light-bulbs to enable our customers to create a unique and personal light fitting to suit any space.

Brooklyn Outdoor & Bathroom

These ceiling fittings are completely pre-wired and only require a small amount of assembly after connecting to the mains wiring:

Once the wall holder is installed, unscrew the black ring.

- Hold the shade in place onto the holder.

- After holding the shade in its place, place the threaded metal ring beneath the shade (if you don't want to have a shade, simply screw the threaded metal ring directly on the holder).

- Once in place, begin to screw the black ring.

- Once secure, it will hold the shade and the threaded metal ring to the holder.

- Once in place, install the bulb.

- After installing the bulb, screw in the glass cover.

- Once secure, your Outdoor Brooklyn Wall Light is now installed.

Swan Neck Outdoor & Bathroom

These ceiling fittings are completely pre-wired and only require a small amount of assembly after connecting to the mains wiring:

- Once the wall holder is installed, unscrew the black ring.

- Hold the shade in place onto the holder.

- After holding the shade in its place, place the threaded metal ring beneath the shade (if you don't want to have a shade, simply screw the threaded metal ring directly on the holder).

- Once in place, begin to screw the black ring.

- Once secure, it will hold the shade and the threaded metal ring to the holder.

- Once in place, install the bulb.

- After installing the bulb, screw in the glass cover.

- Once secure, your Swan Wall Light is now installed.

Table Lamps

The lamp comes fully assembled with a portable plug in chordset.

- Simply place the table lamp on a flat surface like a table.

- Always ensure the light fitting is switched off from the mains before installing and changing the bulb. Once switched off, thread an E27 light bulb on to the bulb holder.

- The table lamp is adjustable only at the points highlighted (A) on the following spec sheet.

- Connect the plug in chordest emerging out from the table lamp into the mains connection.
