Issue 3 - 02/11/2023

# Welcome to the Lloyd Pascal Family Established in 1919

We would love to see your new product in its new home. **Share your experience** by taking a photo or video of your new LP product and **post it on social media tagging** #welovehome #Lloydpascal #LPfurniture #LPhome

**Connect with us:** Using your mobile camera, scan the QR bar code below of your favourite social media channel and follow us!

### Are you loving/satisfied with your new purchase?

Yes: That's perfect. It would make our day if you could leave us a review on our social media channels. Your feedback will help us develop even better products to love.

No: If for any reason your enjoyment of our product is on hold then let the retailer that you purchased your item from know or contact us and we will resolve your issue as quickly as possible.

# Safety and Care Advice Advice

### IMPORTANT, RETAIN FOR FUTURE REFERENCE: READ CAREFULLY.

• Keep children and animals away from the work area small parts are a choking hazard if swallowed.

• Make sure you have enough space to layout the parts before starting.

• This product has been constructed to be used in the domestic environment only and not for commercial purposes. • Assemble the item as close to its final position (in the same room) as possible.

• Assemble on a soft level surface to avoid damaging the unit or your floor.

• The surface should be protected from liquids, heat or cold by using a coaster or mat. The surface is not water resistant and may be damaged or discoloured if not protected.

• We do not recommend the use of power drill/drivers for inserting screws as this could damage the unit. Only use

hand screwdrivers.

- Parts of the assembly will be easier with 2 people.
- Dispose of all packaging carefully and responsibly.

### **Care and Maintenance.**

• Only clean using a damp cloth and mild detergent. Do not use abrasive cleaners.

• From time to time check that there are no loose screws, nuts or bolts. If there are please re-tighten.

• This product should not be discarded with household waste. Take to your local authority waste disposal centre.

### Additional Guidance

• Assemble all parts and bolts loosely during assembly, only once the product is complete should you fully tighten the bolts.

• Regularly check and ensure that all bolts and fittings are tightened properly.

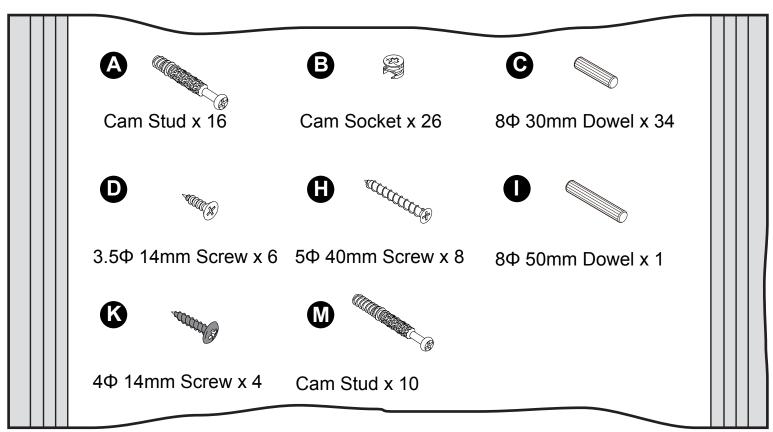

# Fittings

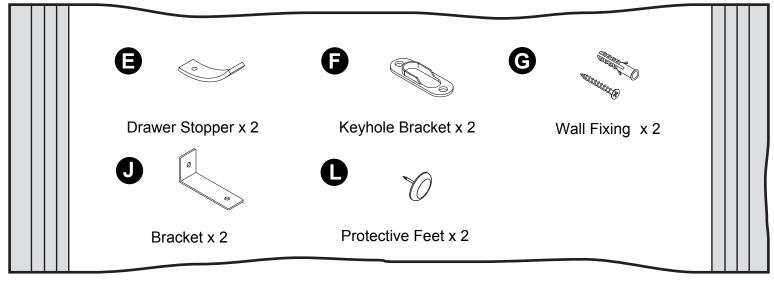

#### Please check that you have all the fittings listed below:

NOTE: The quantities below are the correct amount to complete the assembly. In some cases more fittings may be supplied than required.

# **A Guide to Wall Mountings & Fixing**

Hints:

size.

hole.

Important: when drilling into walls always check

that there are no hidden wires or pipes etc.

Make sure that the screws and wall plugs being used are suitable for

supporting your unit. Consult a qualified tradesperson if you are unsure.

1. General rule: always use a larger screw and wall plug if you are not sure.

2. Ensure you use the recommended drill bit to match the wall plug and hole

3. Ensure you drill the hole horizontally; do not force the drill or enlarge the

Ensure wall plugs are inserted beyond the thickness of the ceramic tiles

4. Take extra care when drilling high walls, ceilings and ceramic tiles.

5. Ensure wall plugs are well fitted and are a tight fit in the drilled hole.

You can use one of the following types of wall plug if your walls are

to avoid the tiles splitting or cracking.

No. 3 "Cavity Fixing" wall plug

For use with plasterboard partitions

or hollow wooden doors

made of brick, breeze block, concrete, stone or wood.

#### Important note:

If plastic wall plugs (rawl plugs) are supplied with your product, eg:

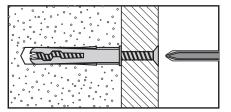

these are suitable for use in masonry walls.

If you are in any doubt about the correct wall plugs for your wall, seek professional advice.

Failure of the product due to using the incorrect fixing is the responsibility of the installer

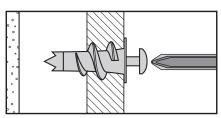

#### Types of walls

No. 1 "General Purpose" wall plug

Generally aerated blocks should not be used to support heavy loads, use a specialist fitting int his case. For light loads, general purpose wall plugs can be used.

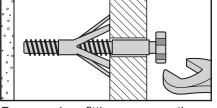

#### No. 2 "Plasterboard" wall plug

For use when attaching light loads onto plasterboard partitions

**Care & Maintenance** 

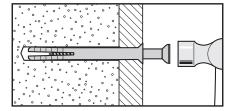

For use when fitting or supporting heavy loads such as shelving, wall cabinets and coat racks.

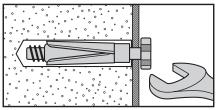

Safety: Always check the fitting and location to ensure your safety in and around the home.

No. 5 "Hammer Fixing" wall plug

For use with walls stuck with plasterboard. The hammer fixing allows it to be fixed to the wall rather than the plasyerboard Always check the fixing is secure to the retaining wall.

No. 6 "Shield Anchor" wall plug - heavy loads

For use with heavier loads such as TV and HiFi speakers and satelite dishes etc.

Fitting: From time to time check the fitting to ensure the wall plugs or screws do not become loose.

# **Using camlocks**

### Step 1:

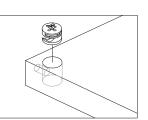

Connect the cam stud as directed in the assembly instructions using a screwdriver.

### Step 2:

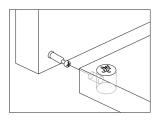

Insert the cam socket as shown in the instructions.

Note: Ensure that the aarow on the top of the camlock points towards the entry hole for the cam socket.

### Step 3:

Push the cam stud into every hole.

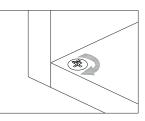

### Step 4:

Turn the cam socket with a screwdriver.

You should feel a click when the camlock is locked in place.

The joint is now secure.

For how to use camlocks watch our video:
