## Before you begin:

1. Carefully inspect the product for damage. If any damage is found, immediately contact our Customer Relations Team.
2. For the mounting of the radiator and attachment of the valve connections. Refer to the radiator installation guide in conjunction with these instructions.

---

## Installation:

1. Carefully slide the 'Bar Rail' through the radiator, aligning it to the desired height. Mark the four holes on the back of the radiator then secure into place with the self tapping screws provided.
2. Proceed to the installation of the radiator. (Refer to the radiator instructions for guidance.)
