

Curved Wet Room Glass Screen

Fitting Instructions

Please follow them carefully and
leave this manual with end user

Safety Information for User & Installer

Before you begin:

1. **We recommend that this product is installed by a qualified tradesperson**, Victorian Plumbing Ltd. accept no liability for products incorrectly installed or any damage to the floor, walls, plumbing, glass screen, or personal injury during installation.
2. **This product is manufactured in compliance with BS EN 14428 Shower Enclosures standards.**
3. Ensure the bath screen is the correct size and fit in conjunction with your bath and wall.
4. **Check that the floor/shower tray and walls are level using a spirit level.**
5. Incorrect installation of the enclosure will invalidate the guarantee.
6. Carefully check the product for transport damage prior to installation.
7. Never install damaged panels as there is a risk of spontaneous glass breakage. The supplied fixings/wall plugs are only for mounting directly on solid walls.
8. It is essential that the solid, masonry/walls be inspected for adequate load-bearing capacity prior to every installation. The supplied fixings/wall plugs are not for use with stud walls such as plaster board, wood, metal or fiber board.
9. Always seek professional advice to confirm wall type and appropriate type of fixing to be used for installation. Always check walls for concealed utility lines (power, gas, and water) prior to drilling the fixing holes.

Special information on handling glass:

1. **Always** protect all glass edges from damage.
2. **Never stand the glass on its corners throughout the installation!** Place the packing material beneath the glass panel; never place the glass on tiles, concrete floors or similarly hard surfaces.
3. It is mandatory to check each glass panel for damage prior to installation. Never install damaged glass panels as this could cause spontaneous glass breakage!
4. If the glass panel is damaged during use, it must be replaced without delay. **(Failure could cause a risk of spontaneous glass breakage!)**

Prevent damage to glass or operation of the product:

1. Ensure that no objects obstruct the glass panel.
2. Avoid hitting the panels with hard objects or tools during assembly. Damaged panels must be replaced as failures may cause latent glass breakage.
3. Do not use panels or handles to hang or support items such as drying towels or clothes.

Child Safety Notices

Please note that you are 100% legally responsible for your own child's safety at home. Once installed, the glass panel can become a hazard for children as the glass screen is not designed to support unreasonable extra weight, such as that of a child. We must stress that you should not allow children to climb/grab/play with the glass screen or rails, as this can cause an accident or injury for the child from falling and/or glass breakage.

Diagram:

Diagrams are for illustration purposes only. Your Screen may superficially differ from this drawing however the installation guide steps still apply.

Fitting List:

1  D6x30 5Pcs	2  ST4x30 5Pcs	3  ST4x12 4Pcs
4  B01 1Pcs	5  W01 1Pc	6  W02 1Pc
7  W03 1Pc	 5 + 6 + 7	8  1Pc

Tools Required:

Ensure the appropriate PPE is used during installation

Installation:

Step 1:

- Confirm the position of the 'Profile', mark the fixing points to the wall ready for drilling. Ensure the markings are level using a spirit level.

Step 2:

- Place the 'Profile' to one side. Using an appropriate sized drill bit, carefully drill the holes in the wall. Ensure that there are no hidden pipes/cables behind the wall markings. Insert the 'Rawl Plugs' provided into the drilled holes.
- Place the 'Profile' over the 'Rawl Plugs' and secure into place using the 'Screws' provided. Ensure the 'Profile' is level using a spirit level.

Step 3:

- Carefully insert the 'Glass Panel' into the 'Profile' on the wall.
- Note:** You can allow up to a 5mm gap between the screen and the profile to ensure the screen fits the profile correctly.
- Using an appropriate sized drill bit, carefully drill the holes into the profiles and panel seals (inside facing).
- Secure the panel into place using the 'Screen Fittings' and 'Screws' provided.

Step 4:

- Mount the arm to the 'Screen' then mark the position on the wall for the 'Arm Bracket'. Using an appropriate sized drill bit, carefully drill the holes in the wall then insert the 'Rawl Plug'.

Step 5:

- Place the 'Arm Bar' over the 'Rawl Plug' and 'Glass Screen'. Secure the fixing bracket to the wall using the 'Screw' provided.
- Using an Allen key provided, secure the 'Arm Bar' into position by screwing the grub screws. (Be careful not to overtighten.)

Step 6:

- Pipe a fine bead of good quality silicone sealant along the back of the profile edge and bottom of the panel (including where the screen and the profile meet). **Do not pipe the silicone on the inside of the screen.**
- Wipe away any excess silicone with a damp cloth and allow 24 hours for the sealant to fully dry.

Attention:

Do not use your shower enclosure within 24 hours of assembly.

Cleaning:

Do not use steam cleaners, caustic or aggressive cleaning and scouring agents, cleaners that corrode plastics, or solvents containing acetone, turpentine or neat bleach.

- Do not use any cleaning agents, which may corrode aluminium or light alloys.
- To prevent damage to glass coating system, do not use glass cleaning pastes and micro-fibre cloths.
- In order to prevent the build-up of lime scale, remove any remaining drops of water after showering using a squeegee, soft cloth without any cleaning agent.
- After use, carefully rinse off all residue such as; liquid soaps, shampoos, shower gels or similar cosmetic product with water to avoid deposits.

Important: Never apply the cleaning agent for longer than necessary.

Recycling and Disposal:

Please recycle the packaging in accordance with your local government regulations on waste handling, and follow the same advice at the end of the products life.
