## Before you begin:

1. **We recommend that this product is installed by a qualified tradesperson**, Victorian Plumbing Ltd. accept no liability for products incorrectly installed, or where the correct testing procedures have not been adhered to, thus resulting in the escape of water and consequential damage.
2. Ensure the incoming mains water supply is switched off prior to commencing the installation.
3. Observe all local plumbing and building codes & regulations.
4. Unpack the product then read these instructions before proceeding. Inspect the product for damage. If any damage is found, contact our Customer Relations team.

## Diagram

①

Make sure that all components are present prior to installation.

②

Measure the depth of the desired outlet in the wall and cut the appropriate length on the threaded tail if necessary.

③

Secure the elbow holder to outlet in the wall using the o-rings and back nut provided.

④

Attach the selected hose and shower handset to the outlet elbow. Turn on the mains water supply, check all joints/connections for any leaks.

Diagrams are for illustration purposes only. Your Holder and handset may superficially differ from this drawing however the installation guide steps still apply.

## Recycling and Disposal:

Please recycle the packaging in accordance with your local government regulations on waste handling and follow the same advice at the end of the products life.
