

Fitting instructions and drawer adjustment:

1. Lift front of drawer then pull away from the unit to remove.
2. Using a spirit level, line up the drawer unit horizontally in the desired position on the wall and mark the hole locations on the wall.
3. Using appropriate fixings for the type of wall, fix the unit to the wall.
4. Locate the drawer back on the runners by first lining up the rear hole into the hook at the rear of the drawer. Once this hook is fully seated in the hole (4a), lower the front of the drawer down and the front pin should locate into the front hole.
- 4b. It is possible to adjust the height of the drawer front by screwing in or out the serrated washer under the front pin. (4b 4c)

1.

2,3

4.

4a.

4b – Adjusted fully up

4c – Adjusted fully down
